

Our Projects

Charitable Isolation Center @ New Delhi

We all witnessed that during Second Wave of **Covid-19**, epidemic was at peak in Delhi and the availability of healthcare infrastructure was at the lowest level. The treatment in the private hospital has been very costly and the Government care centers and hospitals are very limited.

At the same time, our well-equipped Charitable Jai Bheem Covid Isolation Center provided hope of life for poor, downtrodden, and underprivileged in the society, which has itself as a center of excellence in rehabilitation and disability management has also excelled in managing a dedicated COVID-19 center. This was possible only because of dedicated teamwork, meticulous and detailed workup for all aspects and ensuring the safety of the staff and patients at the same time without compromising quality. Through this initiative of Dr. Siddhartha along with his team has been able to help over 20,000 families from 25 slums across Delhi including teleconsultations from senior doctors of the country, distribution of hygiene kits (sanitizers, mask, soaps, gloves, and food) Free of cost. Which reflect in the recovery rate of Covid-19 patients in Delhi has improved to 97.67 percent as of 4th July 2021, highest since March 2021 and shared a contribution of this center have been observed in Delhi in a bid to break the chain of transmission of the COVID-19 pandemic.

Our 11th patient is under-recovery stage
